Published Reports and Memoranda of the Aeronautical Research Council

Reports and Memoranda No. 3750
August, 1974

This paper lists one hundred titles which have been published in the R. & M. Series of the Aeronautical Research Council.

The Council number is included for the purpose of record only.

The R. & M. Series is published and placed on sale by H.M. Stationery Office.

R. & M. No.	Council No.	Title	Author(s)
3651	31 710	Some notes on an approximate solution for the free oscillation characteristics of non-linear systems typified by $\ddot{X} + F(X, \dot{X}) = 0$. August, 1969.	Beecham, L. J. Titchener, I. M.
3652	30 732 31 363	The effect of steady tailplane lift on the subcritical response of a subsonic T-tail flutter model. December, 1968.	McCue, D. J. Gray, R. Drane, D. A.
3653	31 362	Low-speed three-dimensional turbulent boundary-layer data. Parts I and II. March, 1969.	East, L. F. Hoxey, R. P.
3654	31 416	Strength variability in structural materials. February, 1969.	Clifton, F.
3655	29 976	Low-speed wind-tunnel tests on a sweptback wing model (Buccaneer Mark 1) with blowing at the wing leading edge and blowing over the flaps and drooped ailerons. September, 1967.	Butler, S. F. J.
3656	29 888	On the static performance of two-dimensional intakes with momentum injection in the form of boundary-layer control by blowing. February, 1968.	Gregory, N.
3657	31 480	An improved method for calculating generalised airforces on oscillating wings in subsonic flow. April, 1969.	Long, G.
3658	31 798	A method of correlating the ground effects on the longitudinal characteristics of slender wings. September, 1969.	Kirkpatrick, D. L. I.
3659	30 164	Sonic bang measurements during Exercise Summer Sky. December, 1967.	Webb, D. R. B. Hunt, F. L. Pallant, R. J. Walters, W. L.
3660	31 375	Further piloted simulation studies of the handling characteristics of a slender-wing supersonic transport aircraft during approach and landing. February, 1969.	Tomlinson, B. N. Wilcock, T.
3661	31 322	Measurements of section pressure distribution at a Mach number of 2.0 on a wing of 70 deg. sweep mounted on a waisted body. May, 1968.	Winter, K. G. Smith, K. G.

R. & M. No.	Council No.	Title	Author(s)
3662	31 488	A theoretical study of height control in flight close to the ground as affected by elevator lift and cockpit position. May, 1969.	Pinsker, W. J. G.
3663	27 291	Boundary-layer suction to eliminate corner separation in cascades of aerofoils. October, 1965.	Peacock, R. E.
3664	31 278	A three-component gun tunnel balance designed for testing thin delta wings. June, 1969.	Opatowski, T.
3665	32 139	Aircraft centre of gravity response to two-dimensional spectra of turbulence. December, 1969.	Kaynes, I. W.
3666	32 118	Some comments on air condensation effects in a hypersonic helium tunnel. May, 1970.	Davies, L. Townsend, J. E. G.
3667	32 380	The velocities induced by distributions of infinite kinked source and vortex lines representing wings with sweep and dihedral in incompressible flow. June, 1970.	Brebner, G. G. Wyatt, L. A.
3668	31 748	The measurement of Reynolds stresses in low intensity turbulent flow. January, 1970.	Perkins, H. J.
3669	31 779	An application of the RAE wind-tunnel/flight dynamics simulator of the low-speed dynamics of a slender delta aircraft (HP115). August, 1969.	Partridge, D. W. Pecover, B. E.
3670	32 262	A simulation of the low-speed handling of the BAC 221 slender-wing research aircraft. November, 1969.	Wilcock, T.
3671	32 314	Low-speed wind-tunnel measurements of the oscillatory lateral aerodynamic derivatives of a BAC 221 model and comparison of results with similar Concorde and HP115 data. May, 1970.	O'Leary, C. O.
3672	32 211	Possible losses in airspeed during turning manoeuvres in gusty air. February, 1970.	Pinsker, W. J. G. with appendix by L. G. Jones.
3673	32 156	An experimental investigation of the effect of thickness on the subsonic longitudinal stability characteristics of delta wings of 70 deg. sweep-back. November, 1969.	Kirby, D. A. Kirkpatrick, D. L. I.
3674	32 345	An approximate analysis of the non-linear lateral motion of a slender aircraft (HP115) at low speeds. May, 1970.	Ross, A. Jean Beecham, L. J.
3675	31 359	An approximate treatment of the stability of a towed unbanked object in a condition of zero lift. April, 1969.	Hopkin, H. R.
3676	31 490	The theoretical treatment of slowly oscillating part-span control surfaces in subsonic flow. October, 1969.	Garner, H. C. Lehrian, Doris E.
3677	31 348	Shear buckling of isotropic and orthotropic plates. October, 1970.	Johns, D. J.
3678	32 427	Turbulent boundary layers on a large flat plate at $M = 4$. March, 1970.	Hastings, R. C. Sawyer, W. G.
3679	32 593	Free-flight measurements of pressure and heat transfer on a blunt leading-edge caret wing at design and off-design Mach numbers ($M_\infty = 0.9$ to 3.36). July, 1970.	Greenwood, G. H.

R. & M. No.	Council No.	Title	Author(s)
3680	32 167	The effect of variations in local gravity and of aircraft speed on the effective weight of aircraft on high performance cruise. December, 1969.	Pinsker, W. J. G.
3681	32 681	The two-dimensional flow around a slotted flap. September, 1970.	Foster, D. N. Irwin, H. P. A. H. Williams, B. R.
3682	32 355	Research into slush drag, wheel spray and aquaplaning at Bristol University using small pneumatic tyres. June, 1970.	Barrett, R. V.
3683	32 732	Two-dimensional self-preserving turbulent mixing layers at different free stream velocity ratios. March, 1971.	Yule, A. J.
3684	32 368	Theoretical analysis of fluctuating lift on the rotor of an axial turbomachine. September, 1970.	Henderson, R. E. Daneshyar, H.
3685	32 017	Vibration and sound generation in a cascade of flat plates in subsonic flow. February, 1970.	Whitehead, D. S.
3686	32 844	Theoretical assessment of the general stability and gust response characteristics of STOL aircraft. February, 1971.	Pinsker, W. J. G.
3687	32 776	A streamline curvature through-flow computer program for analysing the flow through axial-flow turbomachines. August, 1970.	Frost, D. H.
3688	32 241	An investigation of annular aerofoils for turbofan engine cowls. December, 1969.	Young, C.
3689	32 633	The measurement of ground effect using a fixed ground board in a wind tunnel. July, 1970.	East, L. F.
3690	32 779	A study of dynamic aeroelastic effects on the stability control and gust response of a slender delta aircraft. March, 1971.	Broadbent, E. G. Zbrozek, J. K. Huntley, E.
3691	32 789	Measurement of the yawing moment of inertia of an aircraft (HP115) in flight. November, 1970.	Poulter, R. L.
3692	33 029	Calculations of the effect of blowing from the leading edges of a slender delta wing. April, 1971.	Barsby, J. E.
3693	31 979	Pressure measurements on a model delta wing undergoing oscillatory deformation. March, 1970.	Lambourne, N. C. Bryer, D. W. Maybrey, J. F. M.
3694	33 024	Calculations of the flow over thick, conical, slender wings with leading-edge separation. March, 1971.	Smith, J. H. B.
3695	32 395	The vortex drag of a swept wing with part-span flaps. September, 1970.	Garner, H. C.
3696	32 904	Experiments in turbulent boundary layers with foreign gas injection. April, 1971.	Dunbar, D. I. A. Squire, L. C.
3697	33 046	A flight simulator investigation of the effect of turbulence on rolling requirements at low speed. May, 1970.	Barnes, A. G. Parsons, N. A.

R. & M. No.	Council No.	Title	Author(s)
3698	33 194	The effects of ridge excrescences and trailing-edge control gaps on two-dimensional aerofoil characteristics. April, 1971.	Cook, T. A.
3699	32 949	A technique for the automatic, digital analysis of flight dynamic response data. November, 1970.	Waterfall, A. P.
3700	31 615 32 882	Numerical solutions of oscillatory lift interference. Parts I and II. May, 1971.	Rushton, K. R. Tomlinson, Lucy M.
3701	32 880	The Imperial College graphite heated hypersonic wind tunnel. January, 1971.	Harvey, J. K. Jeffery, R. W. Uppington, D. C.
3702	31 897	Effect of Reynolds number and frequency parameter on control-surface buzz at high subsonic speeds. February, 1970.	Nakamura, Y. Woodgate, L.
3703	33 333	Analysis of mixed-flow rotor cascades. November, 1971.	Lewis, R. I. Fisher, E. H. Saviolakis, A.
3704	32 878	Calculation of blade-to-blade flow in a turbomachine by streamline curvature. December, 1970.	Wilkinson, D. H.
3705	33 027	Glide-path stability of an aircraft under speed constraint. February, 1971.	Pinsker, W. J. G.
3706	33 053	Theoretical use of variable porosity in slotted tunnels for minimising wall interference on dynamic measurements. February 1971.	Garner, H. C.
3707	33 317	A comparison of wing pressure distributions measured in flight and on a wind tunnel model of the Super VC10. November, 1971.	Browne, Miss G. C. Bateman, T. E. B. Pavitt, M. Haines, A. B.
3708	32 451	A review of comparative theoretical and experimental aerodynamic data relevant to zero- and low-frequency aeroelastic problems. May, 1970.	Taylor, A. S.
3709	33 574	Discrete frequency sound generation in axial flow turbomachines. March, 1972.	Smith, S. N.
3710	33 405	Theoretical calculations of generalised forces and load distribution on wings oscillating at general frequency in a subsonic stream. June, 1971.	Lehrian, Doris E. Garner, H. C.
3711	32 910	On the sub-critical stability of variable ramp intakes at Mach numbers around 2. February, 1970.	Fisher, S. A. Neale, M. C. Brooks, A. J.
3712	33 345	Turbulent boundary-layer studies at high Reynolds numbers at Mach numbers between 0.2 and 2.8. December, 1970.	Winter, K. G. Gaudet, L.
3713	33 260	The prediction of instabilities of linear differential equations with periodic coefficients. December, 1970.	Davies, R. J.

R. & M. No.	Council No.	Title	Author(s)
3714	33 503	Relative frequency of occurrence of different normal accelerations at the centre of gravity of aircraft in turbulence. August, 1971.	Taylor, J.
3715	31 704	An experimental investigation of wind-tunnel wall conditions for interference-free dynamic measurements. December, 1969.	Moore, A. W. Wight, K. C.
3716	33 584	The load near the apex of a lifting swept wing in linearised subsonic flow. January, 1972.	Davies, Patricia J.
3717	33 661	An exact test case for the plane potential flow about two adjacent lifting aerofoils. September, 1971.	Williams, B. R.
3718	33 662	An analysis of the drag of two annular aerofoils. June, 1971.	Young, C.
3719	33 585	An iterative method for calculation of the loading on a thin unswept wing. January, 1972.	Sells, C. C. L.
3720	33 473	An experimental investigation of the subsonic longitudinal characteristics of five slender-wing models with gothic planform. July, 1971.	Kirkpatrick, D. L. I. Kirby, D. A.
3721	33 417	The lift and stalling characteristics of 35 deg. swept back wing designed to have identical chordwise pressure distributions at all spanwise stations when near maximum lift. Parts I and II. March, 1971.	Woodward, D. S. Lean, D. E.
3722	33 660	Measurements of the boundary layer and wake of two aerofoil sections at high Reynolds numbers and high-subsonic Mach numbers. June, 1971.	Cook, T. A.
3723	33 736	Optimum reinforcement around a circular hole in a flat sheet under uniaxial tension. January, 1972.	Mansfield, E. H. Hanson, Carol J.
3724	33 861	Approximate analytic methods for the solution of a class of strongly non-linear differential equations—a comparison. July, 1972.	Ross, A. Jean Christopher, P. A. T.
3725	32 144 32 549	Calculation of the induced velocity field on and off the wing plane for a swept wing with given load distribution. August, 1970.	Sells, C. C. L.
3726	31 719	Low-speed aerodynamic characteristics of NACA 0012 Aerofoil Section, including the effects of upper-surface roughness simulating hoar frost. January, 1970.	Gregory, N. O'Reilly, C. L.
3727	34 056	A four degrees of freedom, cockpit motion machine for flight simulation. April, 1972.	Warton, L. H.
3728	34 013	Some calculations of conditions at the intersection of a weak shock wave with a strong shock. March, 1972.	McGregor, I.
3729	33 926	Structural representation in aeroelastic calculations. January, 1972.	Niblett, Ll. T.
3730	34 020	Some observations on manoeuvre stability and longitudinal control. March, 1972.	Pinsker, W. J. G.

R. & M. No.	Council No.	Title	Author(s)
3731	34 217	On the flow in an isentropic light piston tunnel. January, 1973.	Jones, T. V. Schultz, D. L. Hendley, A. D.
3732	33 388	Landing transition paths which optimise fuel, time or distance for jet-lift VTOL transport aircraft in steep approaches. December, 1971.	Huntley, E.
3733	34 098	Kron's method: An algorithm for the Eigenvalue analysis of large-scale structural systems. November, 1972.	Simpson, A.
3734	33 917	Gas strain gauges and their circuitry. January, 1972.	Hickson, V. M.
3735	34 389	Low-speed theoretical and experimental loading on highly-swept curved-tipped wings of two thicknesses. September, 1972.	Garner, H. C.
3736	33 123	Vibration amplitudes produced in St. David's Cathedral by Concorde sonic bangs. June, 1971.	Hunt, F. L.
3737	32 663	An experimental assessment of the possibility of damage to leaded windows by sonic bangs. December, 1969.	Hunt, F. L.
3738	33 992	Analysis of flight and tunnel tests on the Fairy Delta 2 research aircraft. December, 1971.	Feik, R. A.
3739	34 452	An integral prediction method for three-dimensional compressible turbulent boundary layers. December, 1972.	Smith, P. D.
3740	34 126	Lifting-surface theory for a rotating subsonic or transonic blade row. November, 1972.	Namba, M.
3741	34 293	Pressure distribution on two wings with curved leading edges at supersonic speeds. February, 1973.	Narayan, K. Yegna.
3742	34 348	The steady laminar incompressible boundary layer problem as an integral equation in crocco variables: the calculation of non-similar flows. March, 1973.	Mills, R. D.
3743	34 332	Some calculations for air resonance of a helicopter with non-articulated rotor blades. April, 1972.	Baldock, J. C. A.
3744	34 598	Low-speed wind-tunnel measurements of the lift, drag and pitching moment of a series of cropped-delta wings. November, 1972.	Kirby, D. A.
3745	33 863	The effect of steady tail-plane lift on the oscillatory behaviour of a T-tail flutter model at high subsonic speeds. July, 1972.	Gray, R. Drane, D. A.
3746	34 317	The occurrence and removal of indeterminacy from flow calculations in turbomachines. February, 1973.	Bosman, C.
3747	33 488	Low-speed wind-tunnel tests on some slender airbus configurations. November, 1971.	Kirby, D. A. Hepworth, A. G.
3748	34 435	Flow past conically-cambered slender delta wings with leading-edge separation. September, 1972.	Barsby, J. E.

R. & M. No.	Council No.	Title	Author(s)
3749	34 466	Calculation of generalised airforces on two parallel lifting surfaces oscillating harmonically in subsonic flow. September, 1972.	Davies, D. E.
3750	—	Published Reports and Memoranda of the Aeronautical Research Council. (Nos. 3651–3750.) August, 1974.	—
