# Published Reports and Memoranda of the Aeronautical Research Council

---

*Reports and Memoranda No. 3450*

*September 1967*

---

This paper lists one hundred titles which have been published in the R. & M. Series of the Aeronautical Research Council.

The Council number is included for the purpose of record only.

The R. & M. Series is published and placed on sale by H.M. Stationery Office.

R. & M. No.	Council No.	Title	Author(s)
3351	24 179	The use of surface pitot tubes as skin-friction meters at supersonic speeds. June, 1962.	Smith, K. G. Gaudet, L. Winter, K. G.
3352	24 415	A note on the theory of parachute stability. July, 1962.	Lester, W. G. S.
3353	13 899	Low-speed, wind-tunnel tests on the characteristics of leading-edge air intakes in swept wings. November, 1950.	Seddon, J. Kettle, D. J.
3354	24 479	The estimation of stresses around unreinforced holes in infinite elastic sheets. October, 1962.	Sobey, A. J.
3355	24 149	Oscillatory derivative measurements on sting-mounted wind tunnel models: Method of test and results for pitch and yaw on a cambered ogee wing at Mach numbers up to 2.6. July, 1962.	Thompson, J. S. Fail, R. A.
3356	23 390	A theoretical analysis of the stability of an aeroplane on northerly headings when controlled by an aileron-steering autopilot monitored from a gyro-magnetic compass. May, 1961.	Hopkin, H. R. Watts, M. R. Fry, D. E.
3357	24 447	Measurements of aerodynamic heating on a 15° cone of graded wall thickness at a Mach number of 6.8. October, 1962.	Woodley, J. G.
3358	24 450	Kinematic rectification in damped single-axis gyros. August, 1962.	Allan, R. R.

R. & M. No.	Council No.	Title	Author(s)
3359	24 467	An extensive theoretical study of the ability of slender wing aircraft to perform sidestep manoeuvres at approach speeds. August, 1962.	Tomlinson, B. N.
3360	24 824	On the design of a row of windows in a pressurized cylindrical fuselage. May, 1963.	Mansfield, E. H.
3361	23 109	Pressure-plotting and force tests at Mach numbers up to 2.8 on an uncambered slender wing of $p=\frac{1}{2}$ , $s/c_0=\frac{1}{4}$ ('Handley Page Ogee'). May, 1961.	Courtney, A. L. Ormerod, A. O.
3362	24 442	Rolling power tests on an elastic model wing (M Planform) in low-speed flow. August, 1962.	Gaukroger, D. R. Curran, J. K. Marriot, A. T.
3363	23 942 23 943	On the vibrations of cylindrically curved elastic sandwich plates. Part I. With the solution for flat plates. Part II. The solution for cylindrical plates. February, 1962.	Mead, D. J. Pretlove, A. J.
3364	23 786	Control-surface buzz. May, 1962.	Lambourne, N. C.
3365	23 760	A discussion of pitot-static tubes and of their calibration factors with a description of various versions of a new design. May, 1962.	Salter, C. Warsap, J. H. Goodman, Dorothy G.
3366	24 503	The buckling strength of a uniform circular cylinder loaded in axial compression. August, 1962.	Sobey, A. J.
3367	24 596	Streamwise edge effects in the turbulent boundary layer on a flat plate of finite aspect ratio. February, 1963.	Davis, E. B. Young, A. D.
3368	24 131	Three-dimensional disturbances in a two-dimensional incompressible turbulent boundary layer. October, 1962.	Fernholz, H.
3369	24 360	A study of slender, cambered, conical wings by an electrical resistance network. December, 1962.	Ward, H. S.
3370	24 258	The characteristics of some slender cambered gothic wings at Mach numbers from 0.4 to 2.0. May, 1962.	Squire, L. C.
3371	23 717	A simplified approach to the phenomenon of wind tunnel resonance. April, 1962.	Acum, W. E. A.

R. & M. No.	Council No.	Title	Author(s)
3372	23 441	The relationship between upward accelerations and mean associated downward accelerations experienced by aircraft in manoeuvring flight. May, 1961.	Owen, E. Marjorie
3373	24 449 24 931	Pressure distributions and flow patterns at $M=4.0$ on some delta wings. Part I. Wing of inverted 'V' cross-section. Part II. 'Flat' wings. February, 1963.	Squire, L. C.
3374	14 579	A direct iteration method for the calculation of the velocity distribution of bodies of revolution and symmetrical profiles. August, 1961.	Vandrey, F.
3375	24 523	Non-linear theory of steady forces on wings with leading-edge flow separation. February, 1963.	Garner, H. C. Lehrian, Doris E.
3376	24 650	Measurements of the direct oscillatory derivatives for a linear bending mode on four rigid half-span models at subsonic and transonic speeds, in closed and slotted tunnels. March, 1963.	Wight, K. C. Nixon, Jacqueline A.
3377	24 501	Inflated mobile lifting structures, analysis of generator cord construction for circular planforms. July, 1962.	Lester, W. G. S.
3378	24 670	Inflated mobile lifting structures analysis of membrane construction and design optimisation for oval planforms. October, 1962.	Brown, I. S. H.
3379	25 169	Measurements of the pitching-moment derivatives on a sharp-edged delta wing in incompressible flow. October, 1963.	Woodgate, L. Pugh, P. G.
3380	24 568	Some tests on high-reaction compressor blading. January, 1963.	Turner, R. C. Burrows, R. A.
3381	24 939	Measurements of aerodynamic derivatives on a wing with a series of tip bodies. March, 1963.	Guyett, P. R.
3382	24 845	An experiment on aerodynamic nozzles at $M=2$ . November, 1962.	Reid, J.
3383	25 277	On lifting bodies which contain two-dimensional supersonic flows. August, 1963.	Townend, L. H.
3384	25 030	The development of a nozzle for absolute airflow measurement by pitot-static traverse. May, 1963.	Ascough, J. C.

R. & M. No.	Council No.	Title	Author(s)
3385	22 466	Transonic tunnel tests on a 6% thick, warped 55° swept-back-wing model. September, 1960.	Haines, A. B. Jones, J. C. M.
3386	24 059	Bending flutter of unstalled cascade blades at finite deflection. October, 1962.	Whitehead, D. S.
3387	20 501	The turbulent boundary layer with suction or injection. October, 1958.	Black, T. J. Sarnecki, A. J.
3388	23 839	The effect of forward speed on the inlet flow distribution and performance on a lifting fan installed in a wing. June, 1962.	Gregory, N. Raymer, W. G. Love, Edna M.
3389	25 187	The noise of ejectors. October, 1963.	Middleton, D.
3390	25 598	Measurements at subsonic and supersonic speeds of the longitudinal and lateral stability of a slender cambered ogee wing including the effects of a fin, canopy nose and trailing edge controls. September, 1963.	Isaacs, D.
3391	25 795	On the shear flexibility of twisted panels. April, 1964.	Kelsey, S. Pilkington, D. F.
3392	25 600	On the axial compression of long, slightly curved panels. October, 1963.	Pope, G. G.
3393	25 685	Boundary-layer drag of bi-convex wing sections with heat transfer at supersonic speeds. March, 1964	Luxton, R. E. Young, A. D.
3394	17 129	Notes on the analysis of stability in accelerated motion. September, 1954.	Gates, S. B. Thorpe, A. W.
3395	25 373	Upwash interference of wings of finite span in a rectangular wind tunnel with closed side walls and porous slotted floor and roof. November, 1963.	Holder, D. R.
3396	24 636	The effect of linear damping on flutter speed. March, 1963.	Done, G. T. S.
3397	23 990	Measurements of the direct pitching oscillation derivatives for three cropped delta and three arrowhead planforms at subsonic and transonic speeds. August, 1962.	Miles, C. J. W. Bridgman, K. B.
3398	25 102	The change in shock-tunnel tailoring Mach number due to driver gas mixtures of helium and nitrogen. October, 1963.	Pennelegion, L. Gough P. J.

R. & M. No.	Council No.	Title	Author(s)
3399	25 256	Notes and comments on some particular features of wind tunnel design following measurements of flow distribution, wall pressures, etc. in the N.P.L. 7ft (low turbulence) wind tunnel. October, 1963.	Salter, C. Raymer, W. G.
3400	25 730	A theory of the blockage effects on bluff bodies and stalled wings in a closed wind tunnel. November, 1963.	Maskell, E. C.
3401	25 737	Turbulent flow past two-dimensional bases in supersonic streams. December, 1963.	Hastings, R. C.
3402	23 089	The calculation of lateral stability derivatives of slender wings at incidence, including fin effectiveness, and correlation with experiment. March, 1961.	Ross, Alice J.
3403	20 582 22 083	A wind-tunnel investigation of the directional and longitudinal stability of the Javelin aircraft at transonic speeds, including comparison with flight test results. December, 1959.	Sutton, E. P. Stanbrook, A.
3404	21 504 24 567	Mechanical aspects of turbine blade cooling. Part I. Description of an experimental high temperature turbine and associated test rig (Cooled turbine No. 126). Part II. The behaviour of extruded air-cooled rotor blades subjected to steady high temperature and rotational speed. December, 1962.	Waldren, N. E. Flint, J. A. Barnes, J. F. Northwood, J. E. Fray, D. E.
3405	24 565 24 566	An experimental high temperature turbine (No. 126). Part I. The cooling performance of a set of extruded air-cooled turbine blades. Part II. The effects of cooling on the aerodynamic performance. December, 1962.	Fray, D. E. Barnes, J. F. Barnes, J. F. Fray, D. E.
3406	20 051	Design of warped slender wings with the attachment line along the leading edge. September, 1957.	Weber, J.
3407	25 629	Stress-concentration factors for rounded rectangular holes in infinite sheets. November, 1963.	Sobey, A. J.
3408	26 156	Structural damage caused by impulsive loads: a theoretical analysis. April, 1964.	Mansfield, E. H.
3409	25 323	Calculation of unsteady generalised airforces on a thin wing oscillating harmonically in subsonic flow. August, 1963.	Davies, D. E.

R. & M. No.	Council No.	Title	Author(s)
3410	25 269	Some exploratory measurements of leading-edge vortex positions on a delta wing oscillating in heave. July, 1963. With an Addendum by G. F. Moss.	Maltby, R. L. Engler, P. B. Keating, R. F. A.
3411	26 188	Lift due to interference between an aerofoil and an external non-lifting body. May, 1964.	Newmark, S.
3412	25 641	Transonic compressor noise. The effect of inlet guide vane-rotor spacing. January, 1964.	Kilpatrick, D. A. Reid, D. T.
3413	25 876	The supersonic flow past a circular cone at incidence. December, 1963.	Woods, B. A.
3414	26 190	Forces on aerofoils with both incidence and forward speed varying. May, 1964.	Randall, D. G.
3415	25 108 25 109	Oscillatory aerodynamic forces in linearised supersonic flow for arbitrary frequencies, planforms and Mach numbers. January, 1963.	Allen, D. J. Sadler, D. S.
3416	25 793	An investigation of the flow about circular cylinders placed normal to a low-density, supersonic stream. April, 1964.	Metcalf, S. C. Berry, C. J. Davis, Barbara M.
3417	14 859	A theoretical treatment of noise on non-linearities in a beam-riding system. November, 1951.	Burt, E. G. C.
3418	18 768	On the statistical optimisation of guided weapon systems. January, 1954.	Burt, E. G. C. Bain, R. W.
3419	16 267	Measurements of the direct pitching-moment derivatives for three wing planforms at high subsonic speeds. November, 1953.	Bratt, J. B. Raymer, W. G. Townsend, J. E. G.
3420	17 947	Flight measurements of the drag of a swept wing aircraft (Hunter Mk. 1) at Mach numbers up to 1.2, together with some measurements of lift-curve slope. June, 1955.	Andrews, D. R. Nethaway, J. E.
3421	26 102	Boundary-layer separation in supersonic propelling nozzles. August, 1964.	Herbert, M. V. Herd, R. J.
3422	26 303	Generalised aerodynamic forces on a T-tail oscillating harmonically in subsonic flow. May, 1964.	Davies, D. E.
3423	23 620	Theoretical study of the rolling response of aircraft to turbulent air. April, 1961.	Zbrozek, J. K.

R. & M. No.	Council No.	Title	Author(s)
3424	23 111 26 032	Low-speed wind-tunnel experiments on a series of sharp-edged delta wings. March, 1964.	Earnshaw, P. B. Lawford, J. A.
3425	25 150	Experimental pressure distributions on a plane-nosed cylinder at subsonic and transonic speeds. March, 1963.	Stanbrook, A.
3426	25 763 26 192	Effects of longitudinal elastic camber on slender aircraft in steady symmetrical flight. Parts I and II. June, 1964.	Taylor, A. S. Urich, W. F. W.
3427	25 070	Experiments on two-dimensional base flow at subsonic and transonic speeds. January, 1963.	Nash, J. F. Quincey, V. G. Callinan, J.
3428	26 049	On the transfer of heat in a cavity at high and low speeds. July, 1964.	Mills, R. D.
3429	26 085	Torsional flutter of unstalled cascade blades at zero deflection. March, 1964.	Whitehead, D. S.
3430	26 557	The buckling of an axially loaded circular cylinder with initial imperfections. September, 1964.	Sobey, A. J.
3431	26 072	Accuracy of downwash evaluation by Multhopp's lifting-surface theory. July, 1964.	Garner, H. C.
3432	20 802	Notes on the progress of free flight trials to measure heat transfer at Mach numbers up to 5. June, 1958.	Picken, J. Harmer, R.
3433	25 989	Some mutual interference effects between a 5.7° cone and a sonic-leading-edge delta wing at $M_\infty = 2.49$ . December, 1963.	Goldsmith, E. L. Cook, P. H.
3434	26 720	On the prediction of base pressure in two-dimensional supersonic flow. November, 1964.	Roberts, J. B.
3435	15 206 15 486	Measurements of the direct pitching-moment derivatives for four wing planforms at transonic speeds. December, 1952.	Bratt, J. B. Raymer, W. G. Townsend, J. E. G.
3436	26 117	An analysis of the subsonic flow past symmetrical blunt-trailing-edge aerofoil sections at zero incidence, in the absence of a vortex street. August, 1964.	Nash, J. F.
3437	26 296	The N.P.L. 59 in. × 9 in. boundary-layer tunnel. October, 1964.	Bradshaw, P. Hellens, G. E.

R. & M. No.	Council No.	Title	Author(s)
3438	26 621	Wind-tunnel experiments on the flow over rectangular cavities at subsonic and transonic speeds. October, 1964.	Rossiter, J. E.
3439	26 741	An optical method of measuring flow velocity in an arc heater wind tunnel. March, 1965.	Buckingham, D. J.
3440	25 716	Design of a supersonic nozzle. March, 1964.	McCabe, A.
3441	23 432	Six-component low-speed tunnel tests of jet-flap complete models with variation of aspect ratio, dihedral, and sweepback, including the influence of ground proximity. June, 1961.	Butler, S. F. J. Guyett, M. B. Moy, B. A.
3442	26 556	Estimates of the lift reduction due to boundary layer on two-dimensional aerofoils. September, 1964.	Beasley, J. A.
3443	25 953	On some tests designed to demonstrate statistically the required mean life. April, 1964.	Lomnicki, Z. A.
3444	26 128	Renewal processes arising in the study of multiplex systems. July, 1964.	Lomnicki, Z. A.
3445	25 660	Determination of skin friction, separation and transition with a thin film heated element. February, 1964.	Bellhouse, B. J. Schultz, D. L.
3446	26 040	An experimental investigation of the reflected shock pressure-time profiles for air, oxygen, nitrogen, argon, carbon dioxide and acetylene. November, 1964.	Davies, L. Edwards, D. H.
3447	26 109	A critical review of existing methods of calculating the turbulent boundary layer. August, 1964.	Thompson, B. G. J.
3448	25 118	The separated flows on slender wings in unsteady motion. September, 1963.	Lowson, M. V.
3449	26 521	Design and operating features of the N.P.L. 6in. shock tunnel. February, 1965.	Pennelegion, L. Cash, R. F. Bedder, D. F.
3450	—	Published Reports and Memoranda of the Aeronautical Research Council. (Nos. 3351-3450.) September, 1967.	—
